

To support our IVF/Andrology laboratory team in Zurich, we are looking for an

## experienced embryologist

Workload: 70% – 100%

Start date: as soon as possible

Location: Zollikon (near Zurich)

### Who we are

As a dynamically growing fertility center, we offer couples with a desire for a child a comprehensive, interdisciplinary range of services with the entire spectrum of therapies available in Switzerland. We use the latest methods in high-tech reproductive medicine, supported by psychosomatic coaching and traditional Chinese medicine. The day clinic with IVF and andrology laboratory and the medical practice, are located under one roof in Zollikon.

### Your profile

- Completed university education (Master's degree)
- At least 5 years of experience in andrology and embryology are required
- Independent, precise, and team-oriented working style
- Reliability, resilience and flexibility (including weekend duties)
- Service-oriented thinking and acting
- Empathy and sensitivity in patient contact
- Advanced PC-user
- Good English skills (at least Level B1), German and other languages are an advantage
- Experience in QMS

### Your tasks

- Sperm preparation & sperm analysis
- IVF & ICSI
- Cryopreservation of sperm / TESE
- Organization and execution of TESE
- Oocyte retrieval
- Denudation of oocytes
- Vitrification / thawing of oocytes, embryos, blastocysts
- Embryo transfer
- Trophectoderm biopsy (PGT)
- Train and supervise our junior embryologists
- Import / export of germ cells
- Cryotank management
- Monitoring / maintenance of laboratory equipment
- Documentation and database management
- Other routine laboratory tasks

## We offer

- Interesting interdisciplinary work
- A pleasant working atmosphere in a young, collegial team
- Responsibility
- Opportunities for personal development. We also actively support your further education, e.g. certification as ESHRE senior clinical embryologist

## Your future

You will play an important role in a diverse environment at our innovative fertility center.
